Data & SQL	SQL Server, MySQL, PostgreSQL, Advanced SQL, Query Optimization
Data Modeling	Star Schema, Snowflake Schema, Dimensional Modeling, KPI Design
ETL & Integration	Power Query, SSIS, Data Cleaning, Data Transformation, Data Validation
Analytics	Trend Analysis, Forecasting, Cohort Analysis, Variance Analysis, Root Cause Analysis
Tools	Microsoft Excel, Git, JIRA, Confluence, Microsoft PowerPoint
Business Areas	Sales Analytics, Finance Reporting, Operations, Customer Analytics

PROFESSIONAL EXPERIENCE

Senior BI Analyst — DataVista Analytics Pvt. Ltd., Pune

May 2022 – Present

- Designed and maintained executive Power BI dashboards tracking revenue, margin, sales pipeline, customer retention, and operational KPIs.
- Developed complex DAX measures and optimized semantic models to improve dashboard performance and usability.
- Built SQL-based data pipelines and automated recurring management reports, reducing manual reporting effort by approximately 40%.
- Partnered with business stakeholders to define KPIs, translate requirements into analytical solutions, and present insights to leadership.
- Performed variance and root-cause analysis to identify revenue leakage, underperforming regions, and operational bottlenecks.

BI Analyst — InsightWorks Consulting, Bengaluru

Jul 2020 – Apr 2022

- Created interactive Power BI and Tableau dashboards for sales, finance, and customer analytics.
- Cleaned and transformed large datasets using SQL and Power Query while implementing data quality checks.
- Built reusable Excel reporting models using PivotTables, Power Pivot, advanced formulas, and automated workflows.
- Worked with analysts and business teams to document reporting requirements and deliver weekly and monthly KPI packs.

SELECTED PROJECTS

Executive Sales Performance Dashboard

Built a Power BI dashboard combining sales, customer, product, and regional data. Implemented drill-through analysis, dynamic KPI cards, time-intelligence DAX, target-versus-actual reporting, and interactive filters for leadership.

Customer Retention Analytics

Developed a BI solution to analyze customer churn, retention cohorts, purchase frequency, and customer lifetime value. Delivered actionable segments that helped business teams prioritize retention initiatives.

EDUCATION

B.Tech — Computer Science & Engineering Rajasthan Institute of Technology, Jaipur	2016 – 2020
Higher Secondary Education St. Xavier's Senior Secondary School	2016

CERTIFICATIONS

- Microsoft Certified: Power BI Data Analyst Associate (PL-300)

- SQL for Data Analysis — Advanced Certification
- Tableau Desktop Specialist

KEY ACHIEVEMENTS

- Reduced recurring reporting effort by approximately 40% through dashboard and report automation.
- Delivered 25+ interactive dashboards and analytical reports for business stakeholders.
- Recognized for translating complex data findings into clear, executive-ready recommendations.
