PROFESSIONAL SUMMARY

Senior Java Developer with 8+ years of experience designing, developing, and maintaining scalable enterprise applications. Strong expertise in Java, Spring Boot, Spring Cloud, RESTful microservices, SQL, Kafka, Docker, Kubernetes, and AWS. Experienced in leading development teams, improving application performance, designing distributed systems, and delivering reliable production solutions using Agile practices.

CORE TECHNOLOGIES

Java	Java 8/11/17/21, Collections, Streams, Multithreading, Concurrency, JVM
Frameworks	Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate
Architecture	Microservices, REST APIs, Distributed Systems, Event-Driven Architecture
Cloud & DevOps	AWS, Docker, Kubernetes, Jenkins, CI/CD, Maven, Git
Messaging	Apache Kafka, RabbitMQ
Databases	PostgreSQL, MySQL, Oracle, Redis, MongoDB
Testing	JUnit 5, Mockito, Testcontainers, Postman
Practices	System Design, Code Reviews, Agile/Scrum, SOLID, Design Patterns

PROFESSIONAL EXPERIENCE

Senior Java Developer — TechNova Solutions Pvt. Ltd., Hyderabad

Apr 2021 – Present

- Led a team of 6 developers building Spring Boot microservices supporting high-volume customer transactions.
- Designed REST APIs and event-driven workflows using Spring Cloud, Kafka, PostgreSQL, and Redis.
- Reduced API response time by approximately 35% through query optimization, caching, profiling, and concurrency improvements.
- Implemented OAuth2/JWT-based security and service-to-service authentication using Spring Security.
- Built CI/CD pipelines with Jenkins, Docker, and Kubernetes, improving deployment consistency across environments.
- Conducted code reviews, architecture discussions, mentoring, and technical interviews.

Java Developer — FinEdge Technologies, Bengaluru

Jul 2018 – Mar 2021

- Developed enterprise banking services using Java, Spring Boot, Hibernate, Oracle, and REST APIs.
- Migrated selected monolithic modules into independently deployable Spring Boot services.
- Implemented unit and integration testing with JUnit and Mockito and maintained automated build pipelines.
- Collaborated with product, QA, DevOps, and business teams throughout Agile sprint cycles.

KEY PROJECTS

Digital Payments Microservices Platform

Designed transaction, notification, account, and audit services using Spring Boot and Kafka. Implemented idempotency, centralized exception handling, distributed logging, Redis caching, Docker, and Kubernetes deployment.

Customer Risk Analytics System

Built backend services for processing customer transaction data and generating risk indicators using Java, Spring Data JPA, PostgreSQL, Kafka, and scheduled processing.

EDUCATION

M.Tech — Computer Science & Engineering

National Institute of Technology, Warangal

2016 – 2018

B.Tech — Computer Science & Engineering

ABC Institute of Technology, Pune

2012 – 2016

CERTIFICATIONS

- Oracle Certified Professional: Java SE Developer
- AWS Certified Developer – Associate
- Certified Kubernetes Application Developer (CKAD)

LEADERSHIP & IMPACT

Mentored junior engineers on Java, Spring Boot, clean architecture, debugging, and testing. Contributed to design reviews and technical documentation while translating business requirements into scalable engineering solutions.
